INSURANCE MEN MEET TOMORROW EVENING

WILL ORGANIZE LOCAL ASSOCIATION AT THAT TIME

SUPPER ST. JAMES

Instead Hotel Chiquola as Was First Announced—Officers to Be Elected.

An announced in The Intelligencer last Sunday morning, an insurance men's association, which will be affiliated with the National Life Underwriters association, is to be organized in Anderson tomorrow evening. This association will be formed of the insurance agents in Anderson and will have for its purpose that of creating a better feeling of fellowship among the insurance men of the city and for the discussion of subjects that will benefit the insured public. The meeting tomorrow evening will be in the form of a supper at the St. James hotel and is expected to be largely attended. At first it was announced that the supper would be given at the Hotel Chiquola but it has been decided to have it changed. Monthly meetings will be held and they will be alternately at the St. James and the Chiquola.

The organization is just in its infancy and tomorrow evening officers will be elected and by-laws adapted.

DR. WATSON LEASED BUILDING YESTERDAY

STORE ROOM RENTED TO COLUMBIA TAILORING COMPANY

WILL OCCUPY OCT. 1

Property Was Recently Purchased From Mr. Louis Horton—All in Block Now Occupied.

The Columbia Tailoring company yesterday closed a deal whereby they leased Dr. J. E. Watson's store room on North Main street, formerly known as one of the C. A. Reed store rooms. The building was rented through Messrs. Horton and Marshall, agents, and will be occupied on October 1.

With the renting of this store room there remains not a single vacant building on the west side of North Main street from Whitner to Earle street. Dr. Watson recently bought this property from Mr. Louis Horton for about \$25,000 and it is considered one of the best located store rooms in the city.

Mr. C. P. Kay, manager of the Columbia Tailoring company stated yesterday afternoon that they intended to occupy their new quarters on October 1. Heretofore they have occupied a store room on West Whitner street.

CLEMSON TO PLAY FURMAN SATURDAY

"Tigers" in Good Shape and Expect to Put One Over on Baptist Bunch.

Clemson College, Sept. 23.—The Clemson Tigers will journey to Greenville Saturday where they will tackle the promising Furman bunch. While the Tigers feel pretty sure of annexing a victory, they are looking for a fierce game. Accounts of the playing ability of the followers of the purple and white have boosted the Furman stock. The Tigers are not going to risk any overconfidence slump, but will put forth their best. Furman made some strides in the short while that he has been playing. That Clemson does not know what may be spring at the first game.

The line up will be taken from the following: Center and guards—Fonelle, Brandon, Cox, Suggs and Littlejohn; tackles, McGill, (captain), Matthews, and Brandon; ends—Harmen, Poole, Geo. Brown, McFadden and Patience; quarter—McMillan; White, Finley, S. R.; backs—Major, Harris, Adams, McCombell, Kuykendall, Duncan and Finley, R. M.

ST. MARY'S HOSPITAL HAS BEEN COMPLETED

FURNITURE AND FIXTURES ARE NOW BEING INSTALLED

A DESCRIPTION

Of the Building Which Dr. Breedin Will Own and Operate in North Anderson.

One of Andersons new enterprises, St. Mary's hospital, located in North Anderson on the corner of North avenue and Holly street, has just been completed. This hospital is owned and will be operated by Dr. C. Singleton Breedin who had the building erected under his personal supervision.

Furniture and fixtures are now being installed, and patients can be accommodated in a few days. It is predicted that St. Mary's hospital is destined to become one of the prominent institutions of Anderson, and many bespeak for it a long and useful career in the beneficent work of healing the sick and ministering to the needs of suffering humanity.

The structure, while not large, is complete in every detail, and comprises all the conveniences and appointments of a well-equipped, modern hospital. On entering the building, you pass into the reception room, which is fourteen by fourteen feet, plainly yet comfortably furnished, with large straw rockers. The floor is covered with heavy dark linoleum, of a dark green color, which corresponds nicely with the pale green ceiling and cream walls. This room has two large windows, in addition to a large door. To the left of the reception room, is the consulting office, which is finished throughout in white, the floor being of light oak, highly polished. This room is well lighted and well ventilated, with a private exit on the terrace, enabling a patient, after consultation, to leave the building without having to pass through the reception room again. On the north side of the reception room, is a door that opens into a large hall which runs entirely through the building. The walls of this hall are beautifully finished in white, the woodwork being of dark oak, the flooring of light polished oak. This is said to be the prettiest room in the building. It has two large windows on the east and one on the south, and a door opening on the terrace. The woodwork is dark oak, the walls old rose and the ceiling pale green.

On going through the hall, on the east side are the private rooms. On the west side, will be found the men's and women's wards, each ward with an individual bath. The private rooms are handily finished, the walls in cream, the ceiling light green and the woodwork dark oak. The floors of these rooms, as well as the floors of the entire building, are made of rift sawed pine, finished in highly polished light oak. These rooms are lighted with a frosted ball in the ceiling, that furnishes a very soft glow. In addition to their ceiling light, there are electrical reading attachments to hang over the head of the bed for patients that are able to sit up and read. Each private room will be equipped with an electric fan. The beds are three feet wide, and have the latest improved springs, of the surgical pattern, which are said to be the best springs that can be made. The mattresses and pillows are the best that money can buy, the head-rest being made into the springs. The beds are all on ball-bearing, rubber-tired wheels, and if a patient is unable to be put into a rolling chair, the entire bed, with patient on it, may be rolled through the door out on the terrace. The first door on the left of the hall enters the men's ward, which has six beds in it. These wards are splendidly arranged and finished, the walls being painted a cream tint and the ceiling ivory. They are well lighted and ventilated. The next door on the left opens into the women's ward, which is an exact duplicate of the men's ward. Next to the women's ward comes the women's bath, which contains bath-tub, lavatory and toilet of white, solid porcelain. Next to the women's bath is the men's bath, and next to this is a closet containing a slop-sink, very conveniently arranged with racks for bed-pans, urinals and syringes.

The northeastern corner of the building is occupied by the operating, sterilizing and surgeon's dressing rooms. The operating room is on the top of the building, the floor being of white marble tile and the walls of white enamel. Light enters the room through a triple frosted window on the east and a large frosted window of plate glass on the north. For operating at night, light is furnished by a twelve hundred candlepower Nitrogen globe, in an indirect prismatic bowl. This particular arrangement makes it impossible to form a shadow in the room. The remainder of the equipment of this department, such as operating-table, sterilizers, etc., are second to none in the country. A door in the back of the hall leads into the kitchen, where will be found the trays, table-linen, silver and china of the hospital, as well as a wash-sink, refrigerator and gas-stove. There will be no cooking in the hospital, as all food will be cooked in the kitchen of Dr. Breedin's home, under the personal supervision of Mrs. Breedin. The food is brought to the diet-kitchen by the orderly, where the nurses arrange the patient's trays, from whence they are carried to the patients.

An especially attractive feature of

IMPORTANT MEETING FORMER CLEMSON MEN

WILL BE HELD SATURDAY AFTERNOON AT 2:30 O'CLOCK

ORGANIZE CLUB

In Anderson County and All Old Men are Urged to Be Present.

A meeting of all old Clemson college men is called to be held in the chamber of commerce rooms Saturday afternoon at 2:30 o'clock for the purpose of organizing a Clemson club in Anderson county. An urgent invitation is extended to all former Clemson men to attend.

On Saturday afternoon, September 11, about 20 old Clemson men held a meeting and appointed a committee consisting of Messrs. Willet P. Sloan, S. Dean Pearson and Charlie Fant, to attend to calling the meeting for tomorrow afternoon and these gentlemen have written a letter to all of the former students whose addresses were known. This letter was also published in both of the Anderson daily papers in order that those who did not receive letters because their addresses were unknown might know of the meeting and be informed of its purpose.

It is estimated that there is in Anderson county approximately something like 300 old Clemson students. The committee hopes to get as many of these as possible together and will organize one of the strongest clubs in the state. Those who are unable to attend this meeting are requested to send in their names for enrollment.

All are asked to remember that the time of the meeting is Saturday afternoon at 2:30 o'clock and that the place is in the room of the chamber of commerce on North Main street.

AT BAPTIST CHURCH

Sunday School is Steadily Growing in Attendance Lately.

"Since Dr. John E. White has come to Anderson there has been a steady increase in the attendance at the Sunday school at the First Baptist church," stated Dr. A. L. Smethers, superintendent yesterday. "Last Sunday we had 671 pupils present and this coming Sunday we want an attendance of 725. Tell the people to be sure to attend."

The hospital is the arrangement of the quarters for colored people, which occupy the northwestern corner of the building. These quarters are completely isolated from the rest of the hospital, and the nurses have only to supervise the administration of medicines to the colored patients—otherwise, the colored patients will be in charge of the colored orderly-nurse. The plumbing in St. Mary's hospital is said to be the best to be found in any hospital on the state.

The contract for a modern steam-heating plant has been let. The hospital is almost completely surrounded by a brick and stone terrace, covered with removable awnings, which will allow the terrace to be made into a delightful sun-parlor for the patients or a shaded, commodious porch at will.

Anderson is to be congratulated on this important addition to her institutions devoted to the public weal. It is fortunate, both for the reputation of the city and for the welfare of the patrons of St. Mary's that it is to be under the personal control and supervision of so accomplished a gentleman and so well equipped a physician as Dr. C. Singleton Breedin.

"MASTER"

"CHICAGO"

Every Society Brand Suit is marked with the graceful strength of youth. And every one is made to perfectly fit one particular type of figure.

Here are The "Master" and "Chicago," exceedingly smart models, and very popular with particular dressers. The "Master"—two button, regular pockets; the "Chicago"—three button, patch pockets. Both form-fitting.

The "Master" Trousers have the patented reversible or "turn top" waistband, which can be worn regular or turned. When turned it becomes a belt, and shortens one inch.

We want you young men to know how careful we are to have the newest ideas in men's wear. The Society Brand Suits are the very latest. And we have them in fabrics that have never been seen in this city before. Prices as low as \$20.
